What should our DEBATE FORMAT look like? I've layed out a few options above to show what kind of fits. What do we want to do?

Roles and Equipment Needed (7:36, 6 minutes)

Time keeper. Moderators. Ticket Checkers. Greeters. Setup and Teardown. Security? Anything else?

Time keeper lights (anybody with toastmaster connections?). Sign/name tags for candidates. Anything else?

Additional Questions (7:42, 6 minutes)

Need 2 to 4 local ones. Dogwood submitted this one³. Should we share questions with Tropica for their debate?

Are you committed to ending corporate welfare to fossil fuel companies? In view of the climate crisis, what timeline would you commit to in order to end corporate welfare to the oil and gas sector?

Potential Moderators (7:48, 10 minutes)

Bonita suggests having an elected official as a moderator could be seen as biased. I'm not sure if this means current, or current + past + possibly near future. Lets discuss.

Outreach (7:58, 20 minutes)

Diane Strandberg might do story about 100debates/ our effort. What other options do we have? Press Release? Other News Organizations? Facebook? Print? Word of Mouth? EventRite? Various Online Calendars? Candidate mailing list blast?

Does anyone know cost for these things?

We have some 'background' volunteers. How can we use them?

Our Media One Pager (8:08, 5 minutes)

Tri-Cities Climate Debate 2019 will be a debate between federal candidates from the electoral districts of Coquitlam-Port Coquitlam and Port Moody Coquitlam. The debate is being organized by a multi-partisan (non partisan?) committee. The debate will be about the environment and is affiliated with the 100 debates event.

The committee is open to participation by anyone from the community. We are currently working on debate format, venue, format, publicity, and moderation team. Our goal is to create a debate that is fair to all parties and candidates so that different views on this important issue can be discussed.

Last chance to change name? (8:13, 5 minutes)

We're currently "Tri-cities climate debate". Should we call ourselves something else as we're discussing more than just climate?

Discuss Sponsorship Options (8:18, 15 minutes)

Crowd Funding? Sponsorship in Kind Opportunities? E.g. coffee, food, pads/pens for candidates and question writing, Maybe a local printer will offer a discount if they can have their logo on the material?

What do we need for outreach? What do we want at the debate itself?

Jayson Chabot suggested Liliana Segal at Green Chair Recycling (<http://www.greenchairrecycling.com/>) might be a willing sponsor. Any other connections?

Discuss Funding (8:33, 10 minutes)

Member dues? Special assessment? Find sponsors? How do we spread this work amongst volunteers?

Meeting Closes (@8:43)

Next Meeting... Tuesdays or Thursdays better?
